SUMMARY

Full Stack Web Developer with a background in Film and media studies. I have a long lived passion for technology.
- Eye for design
- Unique perspective
- Creative background
-

and life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly applications. Known among staff for strong wit and attention to detail no matter the complexity of the project.

TECHNICAL SKILLS

Languages: HTML, CSS, Javascript, Handlebars, SQL, Node
Applications: I have used HTML, CSS, and Javascript for many of my front projects, then implemented backend development through SQL and Node.js

PROJECTS

Top ten Movies Generator: In this project I worked with API calls in JS as well as Materialize for the front end design to create a movie generator that will display the top 10 movies by each chosen genre. When you click on the movie poster it will then take you to the trailer for the given movie.

Book talk social platform: This is a project I created to allow a space for book lovers to post reviews of their favorite books and interact with other book lovers. I worked with handlebars, SQL, Javascript and, Bootstrap to create this site.

Project Name | Link to GitHub | Link to Deployed Project
- Short summary of project (1-2 lines)
- Your core responsibilities in project (1-2 lines)
- Tools / languages used
